Subject: Amended Planning Application - 22/00882/OUT - Land adjacent to MIRA Technology Park, Caldecote - NH Response

Categories: Yasmin

Dear Christopher,

We have had a preliminary review of the document titled *Updated Review of A5 Mitigation* (dated May 2025), prepared by DTA to support outline planning permission on land located to the south of the A5 Watling Street.

From our review, we have identified the need to request additional information (outlined below) in order to complete our validation of the information provided.

- Copies of the proposed LinSig models so that all parameters in the models can be sufficiently reviewed
- CAD drawings for the proposals so that lane lengths and saturation flow measurements can be reviewed
- Traffic survey data so that the flow assignment in the model can be understood and reviewed

Should you have any queries, please do not hesitate to get in touch.

Kind regards,

Ijas Muhammed
