David

In response to the comments from the Highways officer please find attached the following drawings:

04-Proposed site plan which shows the revised parking bays:
09-Proposed parking and access which indicates the access to the new car-parking area and includes dimensions of the access route and proposed parking bays which now all comply with the guidance rules set out in the comments, and
10-Ownership boundaries which shows the additional area owned by the applicant bounded by a blue line, through which access to the proposed car-parking area is proposed.

I trust this additional information shows that the application is now compliant with all of the items highlighted by the Highways officer. Please do not hesitate to contact me if you require any additional information,
Kind Regards

Claire Anderton
