Subject: Cyprus tree, Leicester Rd, Groby

Debbie
Following our various discussions concerning the above tree I confirm that it is an important specimen tree in the streetscene and together with the trees adjacent to the library, frames the view along this street from the village centre. Although it has been trimmed in the past it is still a fine addition to the character of the conservation area and the setting of the adjacent listed building. Consequently I would not wish to see removed. I have identified it as an important tree in the current appraisal for the conservation area which I am currently undertaking. If it is decided to permit its removal I would suggest that a native tree is planted as a replacement.
