Sarah,
I believe that the existing buildings are used to house livestock and the applicant keeps cattle on the land. The current use has not caused problems and the proposed building is screened from the house by the existing buildings so problems are unlikely.

Sarah,
At 400m I do not think a livestock shelter will cause problems for the residents.

Hi,

The above application is for a proposed livestock shelter within 400m of residential properties. On the weekly list the only comments were CB-CTF, and I have since had comments from CB.

Do either of you wish to comment? There are already two buildings on the site that are used for housing livestock. Cows are grazed on neighbouring fields.

The application is due on the 23rd therefore any comments would be appreciated asap.

Thanks,

Sarah
