Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Overview: This proposal outlines the request for planning permission to change the use of land from agricultural to business. The objective is to create a secure dog field facility that will provide a safe and enjoyable environment for dogs and their owners.

Key Points -

Change of Use:

The land currently designated for agricultural use will be repurposed for business activities focused on dog recreation and training. This change aims to meet the growing demand for safe outdoor spaces for dogs, promoting their well-being and socialisation.

Fencing:

To ensure the safety and security of the dogs, a 6ft deer fence will be installed around the perimeter of the woodland area. The fencing will provide a secure boundary, preventing dogs from escaping and protecting them from potential hazards.

Mobile Shelter:

A mobile shelter, measuring approximately 12x18ft, will be placed on-site to provide shade and shelter for both dogs and their owners. This structure will be temporary and movable, ensuring minimal impact on the land and allowing for flexibility in its use.

No Fixed Structures:

The facility will not include any permanent structures, maintaining the natural landscape and minimising environmental disruption. The focus will be on creating an open, accessible space for dogs to play and exercise freely.

Car Park:

Temporary hard standing car park constructed of loose stone/gravel by main gate

Conclusion:

This proposal for planning permission aims to transform the land into a secure dog field facility that benefits both the local community and their pets. By changing the land use and implementing necessary safety measures, we are committed to providing a valuable resource for dog owners while preserving the integrity of the natural environment.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

There is no physical change to the environment other than a fence line

Note: Please read the help text for further information why developments may be exempt or not in scope.
