Subject: 24/00403/FUL | Construction of a new multi-use sports area, extension of car-park, upgrade to grass pitch and associated works | The Market Bosworth School Back Lane Market Bosworth

Dear Emma,

24/00403/FUL | Construction of a new multi-use sports area, extension of car-park, upgrade to grass pitch and associated works | The Market Bosworth School Back Lane Market Bosworth

We note the submission of an archaeological Written Scheme of Investigation (WSI) for a Strip, Map & Record Excavation and Watching Brief.

I can confirm that this is the same document referred to in my recent email and outlines a satisfactory mitigation programme for the above site. My understanding from the applicant's archaeological consultant is that the intention is to commence the work early next week, we will of course monitor the investigation on behalf of the planning authority. As there does not appear to be a decision on the website I am not sure whether the WSI has been submitted pre-determination or in response to a planning condition. I have copied Lesley into this email in the case that this relates to a discharge of condition application, in this context please see my comments below.

Thank you for the submission of the Written Scheme of Investigation (WSI) for the investigation of the above site (submitted 13/02/2025). The document proposes a satisfactory programme of archaeological work which, upon completion, will meet the requirements for the investigation of the development site.

Please ensure that we are kept informed of the timetable for the archaeological investigation and any significant archaeological results. The Historic & Natural Environment Team (HNET) will, where possible or necessary, monitor the fieldwork on behalf of the planning authority. If the investigation requires significant variation to the agreed programme, please ensure prior approval has been secured from HNET prior to implementation.

Following the conclusion of the necessary archaeological programme (fieldwork, report preparation and archiving), we will advise the planning authority accordingly, and recommend discharge of the outstanding planning condition.

Should you have any further queries or wish to discuss the site in more detail please do not hesitate to contact me.

Yours sincerely,

William
