Dear Geoff/Richard

Please find enclosed details in respect of proposed septic tank for dealing with foul sewage provision in connection with the above proposal at Broomhills Farm. The existing farm already has one septic tank in operation and the proposal would use similar means to process waste from the scheme, as indicated in the enclosed attachments.

I trust this overcomes the Environment Agencies concerns in respect of the application. Please can you acknowledge safe receipt of this email, if you require any further information please contact me, many thanks.

Regards
