Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Therefore, as the application will be made prior to 2nd April 2024, the development qualifies for temporary exemption under Regulation 3 of the Biodiversity Gain Requirements (Exception) Regulation 2024.
