Comments Details

Thank you for your consultation in respect of the above planning application. The County Council has considered the application, having regard to the Development Plan, National Planning Policy Guidance and other relevant material considerations. In this particular instance, the County Council, as Minerals and Waste Planning Authority (MWPA), comments as follows;

Comments: The site for the proposed development is located within a mineral safeguarding area for sand & gravel. However, the proposal will be located adjacent to existing built development at the edge of the recorded mineral deposit and is considered unlikely to be extracted in the future. A mineral assessment is therefore not required in this instance.

Additionally, there is no safeguarded waste site close to the application site and as such, the MWPA does not raise any objection to the proposal from a mineral and waste safeguarding perspective.

Kind regards
