SUMMARY RECOMMENDATION:

No objection (for recommended conditions or informatives- see below)		
Recommend Refusal		
Holding Objection - Further information required		✓
REASON FOR RECOMMENDATION:		
• The proposal is for the construction of an annex within the garden of the existing dwelling. • The application site is currently a large garden surrounded by other large gardens with mature trees and shrubs which offer connectivity to the wider landscape allowing foraging and commuting for a range of wildlife species. • There are records of protected species in the area which could be disturbed by the construction of the annex. Therefore, an ecology walkover survey will be required to assess the current conditions of the site for protected species. • There is a holding objection until this is supplied. • The ODPM Regulations require protected species surveys to be submitted prior to determination of a planning application. It is also essential that the extent that they may		

be affected by the proposed development is established before the planning permission is granted. Reference: Paragraph 99 of ODPM Circular 06/2005 (Biodiversity and Geological Conservation – Statutory Obligations and their Impact within the Planning System). Therefore, any further surveys recommended within the report would need to be carried out prior to determination.

BNG Specific

- Mandatory BNG does not apply as the application is a 'Self-build and custom build development'.
