MILLWORK

GENERAL NOTES

- All aspects of Household's drawings are subject to the survey and provision of full details and dimensions by the main contractor. Any major discrepancies are to be discussed with Household prior to commencement of work. All areas where heights are critical are to be surveyed and noted on drawings prepared at the earliest opportunity.
- All dimensions relating to suppliers or sub-contractors must be checked and agreed between main contractors and suppliers or sub-contractors.
- Household's drawings represent design intent only. Specialist subcontractors are responsible for accurate, safe and fit for purpose execution of all items under their domain. Overall responsibility for implementation lies with the main contractor. All variations, which may be the result of technical safety requirements, must be discussed with Household prior to implementation. Where variations are necessary, the details of original design intent must be maintained or alternative proposals submitted to Household for consideration.
- Main contractor to ensure all details are commensurate with structural stability.
- All electrical installations are to comply with current industry regulations and good practice.
- All details are to conform with relevant statutory requirements.
- All design profiles to be maintained in detailing and manufacturing.
- For information on engineering package refer to separate graphics package where relevant.
- Drawings to be read in conjunction with Household's Standard Site Drawing Package.
- If in doubt, ask, consult or advise - please do not assume.
