

This is a black and white architectural elevation drawing of a single-story house. The house features a gabled roof with a chimney on the left side. The front facade includes a central entrance door, a large multi-paned window to its right, a smaller square window further right, and a large double door on the far right. The drawing uses solid lines for the main structure and dashed lines for the roofline and ground level.

This architectural drawing shows the front elevation of a building. It features a chimney on the roof, a small window on the left, and a large double door on the right. The drawing is a simple line sketch with some shading to indicate depth.

The diagram shows a cross-section of a building facade. At the top is a window with a dark frame. Below the window is a brick wall. A horizontal band of lighter-colored bricks runs across the middle of the wall. Below this band is a dark horizontal band, and then another section of brick wall. The bottom of the diagram shows a curved line representing the ground level.
