Comments Details

Dear Joe,

Thank you for consulting the National Forest on the above application for the Change of use of agricultural land to caravan storage for up to 20 Caravans.

Comments: We have considered the National Forest planting requirement when commenting on the previous (now withdrawn) application (26/00425/FUL).

The location and area of National Forest planting is as previously agreed.

The Woodland Planting Specification needs amending as the total number of trees under section 3. Species Mix is incorrect. The number of trees specified in this Section needs to align to the

number of trees in Section 2: Planting Density.

Subject to the above amendment, the details are acceptable. Following this amendment, please can you impose a condition to ensure that the woodland planting as shown on the Proposed National Forest Planting Plan takes place in the first planting season (November to March) following commencement. A further condition will also be needed to require that the woodland will be established and maintained in accordance with the [amended] Woodland Planting Specification.

Kind Regards
Eilish

Eilish Gardner | Green Infrastructure & Planning Officer
