SUMMARY RESPONSE:	
No comment	
No objection	
Recommend Refusal	
Holding Objection - Further information required	☒
Condition recommended	
Informative recommended	
REASON FOR RECOMMENDATION PROVIDED:	
- The proposed development involves extensive alterations to the existing roof structure. - The site has good habitat connectivity in the form of hedgerows and mature trees to nearby countryside, and we have several records of bat roosts nearby in similar buildings. - As such, a Preliminary Roost Assessment (PRA) for bats will be required, as detailed below.	
BIODIVERSITY NET GAIN (BNG) specific comments:	
N/A	
FURTHER INFORMATION REQUIRED:	
- A Preliminary Roost Assessment (PRA) will be required prior to determination. This can be carried out at any time of the year, and will inform further surveys and possible mitigation if required. - Please note that ODPM Regulations require protected species surveys to be submitted prior to determination of a planning application. It is also essential that the extent that they may be affected by the proposed development is established before the planning permission is granted. Reference: Paragraph 99 of ODPM Circular 06/2005 (Biodiversity and Geological Conservation – Statutory Obligations and their Impact within the Planning	

System). Therefore, any further surveys recommended within the report would need to be carried out prior to determination.
