Submission Type:

Comments:
I have viewed the plans to consider the implications for the recycling & refuse collections.

Please ask the developer to refer to the guidelines on the Recycling & Refuse Services (available from the planning officer or myself) to ensure adequate space on properties to store the various containers and also space at the

kerbside (ie where the properties meet the public highway) for the placement of the containers on the collection day. Welcome to contact me direct with any questions on these services.

I recommended the following condition:

No development shall take place until a scheme that makes provision for waste and recycling storage across the site has been submitted to and approved in writing to the Local Planning authority. The details should address accessibility to storage facilities for both residents and refuse/recycling collectors.
