FAO Hinckley and Bosworth Planning Department

In February 2022 my client submitted an application, accompanied by supporting documents, to discharge the conditions 3, 6, and 11 of the approved planning application referenced as 21/00876/FUL.

Despite our client's submission we hadn't received a response. We understand the department was experiencing challenges during that period and the application has never been processed and the accompanying cheque appears not to have been cashed.

Can you please advise of the revised fee and link so that I can arrange for the appropriate fee to be paid.

Therefore, please find enclosed:

- Land Contamination Report by Ivy House Environmental.
- Proposed electric charging point drawing and specification ref: PL901.
- Complete approval of details reserved by a condition application form.

Yours sincerely,

[REDACTED]

Jonathan Bradbury BSc MA
