

Waste & Recycling Email Statement

23/00334/DISCON

Dated 19 April 2023

Drawing **3891-06a-A1** which shows 8 individual 240L bins (one refuse and one recycling per dwelling created) positioned close to the building. We have also indicated the presentation position for the 4No. Individual bins on collection day as close to the highway as we can get.

If our Client opts to retain the 3No. 1100L bins, they will be collected by private waste collection services from the back of the property.
