Parking Provision Assessment

07.11.2023

Construction of New House, Roseway, Stoke Golding. CV13 6HQ

Assessment

There is currently no provision for parking within the site due to it's current use as a field.

It is intended to build a large 2 car garage which conforms in size to most development requirements.
There will also be space on the drive and hard-standing for a further 3 cars.
