TREE SURGEONS

(Established 1977)

"Investing in the environment by working with nature to provide specialist tree care"

Mr & Mrs Stevens
Witherley Hall,
Hall Lane,
Witherley,
Atherstone.

For work as follows to 1 Purple Beech tree (Fagus sylvatica 'purpurea'): -

- **Crown raise to 7m** - This will involve the pruning of the lower part of the crown to allow light to penetrate beneath. All pruning cuts will be made to a side growth or parent limb to encourage the wounds to heal over as quick as possible.

- **Prune back from house** - This will involve the pruning of younger growth to discourage it from touching the house.

- **Weeping Willow (Salix babylonica).** In Middle of lawn, Clean out.

- **Weeping willow.** adjacent to stream. Prune damaged limb.
