Good morning

I refer to the above application, which has been sent out for re-consultation.

In our response, Desford Parish Council has pointed out that, although the plan shows adequate room for parking 3 cars in front of the 2 properties concerned, the reality is that there is only space for 2 vehicles, parked diagonally or parallel to the road. If cars are parked at right-angles to the road, they will hang over and obstruct the pavement..

Please see the attached photograph taken yesterday and check the measurements.

We request that adequate off-road parking for 6 cars is provided in this already heavily congested section of Newbold Road.

kind regards

Pat Crane

Chair of Planning Committee

Desford Parish Council
