Good afternoon

The assessment appears to be showing a horizontal plane at 6m rather than a vertical.

Regards

Good afternoon Lesley,

Please see attached the updated lighting assessment which now includes a vertical plane assessment for the two nearest dwellings as requested by Giles. At both properties, the assessment confirms a light level well below 1 lux as advised by Institution of Lighting Professionals Guidance Note 1 for Environmental Zone E2.

I trust that this additional information will now allow you to discharge this condition but if you require anything further then please do not hesitate to get in touch. I have also cc'd Giles here for your convenience.

Best regards,

Paul Hamill MRTPI  
Estates Manager

Good Afternoon Paul

Following consultation on the above application I have the following comments from our EHO already:

**Condition 6**

Details should be submitted to demonstrate that the lighting on site will comply with the Institution of Lighting Professionals Guidance Note 1 for the reduction of obtrusive light 2021. An Environmental Zone E2 should be used. a vertical plane at an appropriate height for surrounding dwellings should be used.

Further updates will be provided as and when the consultation responses come through.

Kind Regards
