Description of Application:
New electrical substation

Thank you for your consultation in respect of the above planning application. The County Council has considered the application, having regard to the Development Plan, National Planning Policy Guidance and other relevant material considerations. In this particular instance, the County Council, as Minerals and Waste Planning Authority, comments as follows;

The site as a whole falls partially within a Mineral Safeguarding Area (MSA) for sand and gravel with the proposed red line development falling within the MSA. However, a Minerals Assessment is not deemed necessary and the County Planning Authority has no objections to the proposal.

Yours Sincerely,

Christina Emmett
