Dear Sir/Madam,

Town & Country Planning Act 1990
Provision of combined Public Telephone Kiosk & ATM.
At: Outside Nos 38 - 40 Wood Street, Earl Shilton, Leicestershire LE9 7ND

Please find enclosed completed forms, accompanying plans and a cheque for £265 is in the post to cover the Planning fee relating to the above proposal.

BT Payphones (BTP) has recently identified a number of existing telephone kiosks throughout the country which it proposes to convert into a dual-purpose ATM and Payphone. A number of kiosks have already been converted or are awaiting installation in Local Authorities such as

Barnet, Birmingham, Blackpool, Brent, Brighton & Hove, Bristol, Canterbury, Cardiff, Chorley, Copeland, Coventry, Crawley, Durham, Ealing, East Lindsey, East Bourne, City of Edinburgh, Enfield, Glasgow City, Great Yarmouth, Greenwich, Hackney, Haringey, Harrogate, Harrow, Havering, Hounslow, Islington, Kensington & Chelsea, Kettering, Kingston Upon Thames, Knowsley, Lancaster, Leeds, Leicester, Lewisham, Liverpool, Macclesfield, Maidstone, Merton, Middlesbrough, Newcastle Under Lyme, Newcastle Upon Tyne, Northampton, Oxford, Portsmouth, Reading, Redbridge, Renfrewshire, Richmond, Sedgemoor, Sheffield, Slough, Southend on Sea, Southwark, Sunderland, Sutton, Swindon, Thanet, Tower Hamlets, Vale Royal, Wandsworth, Watford, Woking and finally York.

In this application BTP's objective is to provide a brand new Payphone Service as well as an extension outlet to allow HSBC to offer a FREE TO USE ATM terminal for their customers.

Importantly, BTP has carried out extensive consultation with your local Police Crime Prevention Officer Stewart Bradshaw. He has informed us that the site selected satisfies his criteria in terms of crime prevention. We have worked with the Police since the start of the project which is some 3 years old now & upgraded our terminals to accommodate their requests.

British Telecommunications plc.
Registered office 81 Newgate Street,
London. EC1A 7AJ.
Registered in England no 1800000

We are not enlarging the footprint or changing the main shape of a standard Telephone kiosk & it is our belief that the proposed design and use of colours will fit in with the surrounding area.
Due to the narrow footpath width BT proposes to make it a 180 degree configuration.

If the colour scheme & livery is not to Hinckley & Bosworth Borough Council's preferred colour or style for this particular location, BT will listen & work with you to find a suitable colour & livery that is acceptable to you.
Our Police & Local Authority Liaison Manager Mr Martin Bradford (01670 823874) would welcome any further discussions concerning variations in colour & livery on a site per site basis.

This new style of kiosk has given BTP the opportunity to provide the new facilities with the Disabled members of the community in mind. Both services will be user friendly to Disabled Users, especially those using wheelchairs & Motobility Scooters.

As a final point, please could you advise whether there are any development works planned in the future which may have an impact on the location of this kiosk?

If you require any further information regarding the proposal, please do not hesitate to contact me.

We hope that you will be able to support this proposal and planning consent will be forthcoming soon.

Yours faithfully,

Gerald Mc Donough
