RE: GROBY LODGE FARM - APPLICATION REF. 10/00901/EXT

Further to our various discussions and emails regarding this matter, please find enclosed the further ecological survey work* required to allow the Council to approve my client's planning application. The survey work has been undertaken following further discussion between Barry Collins and Natural England and includes additional emergence and activity surveys (bats and birds) and a great crested newt survey.

The overall findings are conveniently summarised in the letter dated July 5th, 2011 from Mr B J Collins MSc MIEEM addressed to myself which is also attached above.

I trust that you will now be able to issue the planning permission in accordance with powers delegated to officers at Planning Committee on February 1st, 2011.

Should either yourself or Natural England have any further questions or wish to discuss any matters raised by this email then please don't hesitate to contact me in the first instance (planning issues) or Barry Collins (regarding specific ecological matters).

* Attached documents comprising -

- Letter from BJ Collins to Andrew Thomas dated July 5th, 2011
- Groby Lodge Farm - GCN Survey June 2011
- Groby Lodge Farm - Follow-up Bat Surveys June 2011
