Archaeological considerations

Comments: Following our previous comments under application 22/00318/OUT we note that no new impact on the site is proposed and would advise the applicant that condition 32 of the outline permission should be adhered to:

32) No development shall commence until a written scheme of archaeological investigation (WSI) has been submitted to and approved by the local planning authority. For land that is included within the WSI, no demolition/development shall take place other than in accordance with the agreed WSI, which shall include the statement of significance and research objectives, and

The programme and methodology of site investigation and recording and the

nomination of a competent person(s) or organisation to undertake the agreed works

The programme for post-investigation assessment and subsequent analysis, publication & dissemination and deposition of resulting material. This part of the condition shall not be discharged until these elements have been fulfilled in accordance with the programme set out in the WSI.

Information on suitable archaeological organisations to carry out this work can be obtained from HNET. Should you have any further queries please do not hesitate to contact us.

Yours sincerely,

William
