

National Highways Planning Response (NHPR 22-12) Formal Recommendation to an Application for Planning Permission

From: Victoria Lazenby (Regional Director)
Operations Directorate
Midlands Region
National Highways
PlanningM@nationalhighways.co.uk

To: Hinckley & Bosworth Borough Council
FAO: sullevan.archer@hinckley-bosworth.gov.uk

CC: transportplanning@dft.gov.uk
spatialplanning@nationalhighways.co.uk

Council's Reference: 24/01099/REM

Location: Land South of The A5, Padge Hall Farm, Hinckley, Leicestershire

Proposal: Approval of reserved matters (landscaping) on Hybrid application 21/01191/HYB for the erection of distribution and industrial buildings (Use Class B2 and B8) including ancillary offices.

National Highways Ref: NH/24/09323

Referring to the consultation on a planning application dated 17 December 2024 referenced above, in the vicinity of the A5 that forms part of the Strategic Road Network (SRN), notice is hereby given that National Highways' formal recommendation is that we:

- a) offer no objection (see reasons at Annex A);
- ~~b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – National Highways recommended Planning Conditions & reasons);~~
- ~~c) recommend that planning permission not be granted for a specified period (see reasons at Annex A);~~
- ~~d) recommend that the application be refused (see reasons at Annex A)~~

Highways Act 1980 Section 175B is not relevant to this application.¹

This represents National Highways' formal recommendation and is copied to the Department for Transport as per the terms of our Licence.

Should the Local Planning Authority not propose to determine the application in accordance with this recommendation they are required to consult the Secretary of State for Transport, as set out in the [Town and Country Planning \(Development Affecting Trunk Roads\) Direction 2018](#), via transportplanning@dft.gov.uk and may not determine the application until the consultation process is complete.

The Local Planning Authority must also copy any consultation under the 2018 Direction to PlanningM@nationalhighways.co.uk.

Signature: <i>Adrian Chadha</i>	Date: 8 January 2025
Name: Adrian Chadha	Position: Assistant Spatial Planner
National Highways The Cube, 199 Wharfside Street, Birmingham, B1 1RN Adrian.Chadha@nationalhighways.co.uk	

¹ Where relevant, further information will be provided within Annex A.

Annex A **National Highways' assessment of the proposed development**

National Highways has been appointed by the Secretary of State for Transport as a strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

Reasons

This response represents our formal recommendations with regard to planning application 24/01099/REM and has been prepared by Adrian Chadha, Assistant Spatial Planning Manager for National Highways.

This consultation seeks recommendations for the approval of reserved matters related to landscaping for the permitted hybrid planning permission 21/01191/HYB for the construction of distribution and industrial buildings (Use Class B2 and B8) and ancillary offices, on land south of the A5 Padge Hall Farm, Hinckley.

We have undertaken a review of the information provided, as this is due to the landscaping of the development site, we have not identified any issues that would impact the SRN, therefore we are content that this application can be considered by way of a 'No Objection'

Standing advice to the local planning authority

The Climate Change Committee's [2022 Report to Parliament](#) notes that for the UK to achieve net zero carbon status by 2050, action is needed to support a modal shift away from car travel. The NPPF supports this position, with paragraphs 73 and 105 prescribing that significant development should offer a genuine choice of transport modes, while paragraphs 104 and 110 advise that appropriate opportunities to promote walking, cycling and public transport should be taken up.

Moreover, the build clever and build efficiently criteria as set out in clause 6.1.4 of [PAS2080](#) promote the use of low carbon materials and products, innovative design solutions and construction methods to minimise resource consumption.

These considerations should be weighed alongside any relevant Local Plan policies to ensure that planning decisions are in line with the necessary transition to net zero carbon.
