Part I - Particulars of Application

Date of Application

23 December 2024

Application No.

24/01156/OUT

Particulars and location of development :

Outline planning permission for residential development (all matters reserved except for access)

Land South East Of Tesco Ltd London Road Hinckley Leicestershire

Part II - Particulars of decision

In dealing with the application, through ongoing negotiation the local planning authority have worked with the applicant in a positive and proactive manner by offering a pre-application advice service and by seeking solutions to problems arising in relation to dealing with the planning application and this has resulted in the approval of the application. The Local Planning Authority has therefore acted pro-actively to secure a sustainable form of development in line with the requirements of the National Planning Policy Framework (paragraph 39) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).

In pursuance of its powers under the Town and Country Planning Act 1990, the Hinckley and Bosworth Borough Council grants permission for the carrying out of the development referred to in Part I hereof in accordance with the application form and plans submitted, subject to the following conditions :-

1. An application for approval of reserved matters shall be made within two years of the date of this permission and the development shall be begun not later than 18 months from the date of approval of the last of the reserved matters to be approved.

Reason: To comply with the requirements of Section 92 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

2. No development shall commence until details of the layout, scale, appearance, landscaping, and access other than vehicular access (hereafter called the reserved matters) have been submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved reserved matters.

Reason: To ensure a satisfactory form of development in accordance with Policies DM1 and DM10 of the Site Allocations and Development Management Policies Development Plan Document (2016).

IMPORTANT - PLEASE READ THE NOTES AT THE END OF THIS DOCUMENT

3. Notwithstanding the indicative details shown on the submitted plans the development hereby permitted shall only be carried out within the red line shown on the submitted location plan (2024-12-115) submitted on 23 December 2024.

Reason: To ensure a satisfactory form of development in accordance with Policies DM1 and DM10 of the Site allocations and Development Management Policies Development Plan Document (2016).

4. Prior to the commencement of development, a scheme for the investigation of any potential land contamination on the site has been submitted in writing to, and approved in writing by, the Local Planning Authority, which shall include details of how any contamination shall be dealt with. The approved scheme shall be implemented in accordance with the agreed details and any remediation works so approved shall be carried out prior to the site first being occupied.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

5. If during development contamination not previously identified is found to be present at the site no further development shall take place until an addendum to the scheme for the investigation of all potential land contamination is submitted in writing to, and approved in writing by, the Local Planning Authority, which shall include details of how the unsuspected contamination shall be dealt with. Any remediation works so approved shall be carried out prior to the site first being occupied.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

6. No development shall take place until a Biodiversity Enhancement Scheme has been submitted to, and approved in writing by, the Local Planning Authority. Enhancements should include, but is not limited to, three swift boxes/ bricks on each northern or eastern elevation (as most appropriate). Details of these enhancement measures should include the appropriate locations, makes, and models of boxes/ bricks, and any enhancement measures need to be shown on all relevant submitted plans. All works are to proceed strictly in accordance with the approved scheme.

Reason: In order to protect the protected wildlife species and their habitats that are known to exist on site to accord with Policy DM6 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016)

7. No development shall commence on the site until such time as a construction traffic management plan, including as a minimum details of wheel cleansing facilities, vehicle parking facilities, and a timetable for their provision, has been submitted to, and approved in writing by, the Local Planning Authority. The construction of the development shall thereafter be carried out in accordance with the approved details and timetable.

Reason: To reduce the possibility of deleterious material (mud, stones etc.) being deposited in the highway and becoming a hazard for road users, to ensure that construction traffic does not use unsatisfactory roads and lead to on-street parking problems in the area.

8. No part of the development hereby permitted shall be occupied until such time as site drainage details have been provided to and approved in writing by the Local Planning Authority. Thereafter surface water shall not drain into the Public Highway and thereafter shall be so maintained.

Reason: To reduce the possibility of surface water from the site being deposited in the highway causing dangers to road users in accordance with the National Planning Policy Framework (2024).

9. No part of the development hereby permitted shall be occupied until such time as the access arrangements shown on James Fleming Architectural drawing number 2024-12 113 revision C have been implemented in full.

Reason: To ensure that vehicles entering and leaving the site may pass each other clear of the highway, in a slow and controlled manner, in the interests of general highway safety and in accordance with the National Planning Policy Framework (2024).

10. No part of the development hereby permitted shall be occupied until such time as 2.0 metre by 2.0

metre pedestrian visibility splays have been provided on the highway boundary on both sides of the access with nothing within those splays higher than 0.6 metres above the level of the adjacent footway/verge/highway and, once provided, shall be so maintained in perpetuity.

Reason: In the interests of pedestrian safety and in accordance with the National Planning Policy Framework (2024).

11. The development hereby permitted shall not be occupied until such time as the existing gates to the vehicular access have been permanently removed. Notwithstanding the provisions of Part 2 of Schedule 2, Article 3 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order) no vehicular access gates, barriers, bollards, chains or other such obstructions shall be erected within a distance of 6 metres of the highway boundary, nor shall any be erected within a distance of 5 metres of the highway boundary unless hung to open away from the highway.

Reason: To enable a vehicle to stand clear of the highway in order to protect the free and safe passage of traffic including pedestrians in the public highway in accordance with the National Planning Policy Framework (2024).

12. Any forthcoming Reserved Matters application shall include details for the adequate provision for waste and recycling storage of containers and collection across the site. The details should address accessibility to storage facilities and confirm adequate space is provided at the adopted highway boundary to store and service wheeled containers.

Reason: To support the policies within the Wheeled Bin and Container Policy (updated March 2018) and to ensure that there is adequate provision of waste and recycling storage so that the amenity of the occupants of the proposed development are not adversely affected in accordance with Hinckley and Bosworth Borough Council's Wheeled Bin and Contained Policy (updated March 2018), Policy DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016) and Section 46 of the Environmental Protection Act 1990.

13. Any forthcoming Reserved Matters application shall include details for secure cycle parking in accordance with the guidance with the Good Design Guide (2020), Leicestershire Highway Design Guide (2020), and the Building for a Healthy Life (2020).

Reason: To promote travel by sustainable modes in accordance with Policy DM17 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016), and Chapter 9 of the National Planning Policy Framework (2024).

NOTES TO APPLICANT :-

1. The approved development may require Building Regulations Approval, for further information please contact the Building Control team via e-mail at building.control@blaby.gov.uk or call 0116 272 7533.
2. Although only the access and principle of one residential unit within this site is sought for approval at this stage, it is noted that the indicative property to accommodate two one-bedroom apartments with a vehicular under croft does not reflect the character of the surrounding area and is therefore unlikely to be acceptable within any forthcoming detailed design of the development.
3. The Applicant must engage with National Rail's Asset Protection Team prior to any work taking place on site at AssetProtectionEastern@networkrail.co.uk and enter into any necessary Basic Asset Protection Agreement (BAPA) to ensure the safety of the operational railway during these activities. The Applicant will be fully liable to any damage, injury, or delay to the rail network that is caused by construction works or the future maintenance of the application site.
4. The Applicant's attention is drawn to the information provided within National Rail's response to the planning application on 10 February 2025.
5. In relation to Conditions 03 and 04, advice from Environmental Health should be sought via esadmin@hinckley-bosworth.gov.uk to ensure that any investigation of land contamination is in accordance with their policy.
6. Planning Permission does not give you approval to work on the public highway. Therefore, prior to carrying out any works on the public highway, the Applicant must ensure all necessary licences/

permits/ agreements are in place. For further information, please telephone 0116 305 0001. It is an offence under Section 148 and Section 151 of the Highways Act 1980 to deposit mud on the public highway and therefore you should take every effort to prevent this occurring.

7. Surface water should be managed by sustainable methods, preferably those that disperse runoff by infiltration into the ground strata: i.e. soakaways, pervious paving, filter drains, swales, etc., and the minimisation of paved areas, subject to satisfactory porosity test results and the site being free from a contaminated ground legacy. If the ground strata are insufficiently permeable to avoid discharging some surface water off-site, flow attenuation methods should be employed, either alone, or in combination with infiltration systems and/or rainwater harvesting systems.
8. Any access drives, parking and turning areas, paths and patios should be constructed in a permeable paving system, with or without attenuation storage, depending on ground strata permeability. On low-permeability sites surface water dispersal may be augmented by piped land drains, installed in the foundations of the paving, discharging to an approved outlet (See Environment Agency guidance on the permeable surfacing of front gardens).
9. Hinckley & Bosworth Borough Council's recycling and refuse collection services are from the boundary to the adopted highway and do not travel along, nor collect from private roads or driveways. Please refer to the policies within the Wheeled Bin and Container Policy (updated March 2018).

It would be advisable to include an area near the roadside for the safe placement of the various containers on collection day. This will then keep the access clear to allow vehicular access. It will be the responsibility of the occupiers to ensure that all containers/wheeled bins are brought to the collection point.

C. Brown.

Christopher Brown MRTPI
Head of Planning

Date : 24 April 2025

NOTES

1. It will be most helpful if the application number shown overleaf is quoted in all correspondence.
2. If you consider that this decision has been made invalidly through the Council failing to follow a procedure correctly, not having the legal power to make the decision in the way it did or through its decision being so unreasonable as no reasonable local authority would make the same decision based on the same facts, then you may enter a claim for judicial review to quash the decision. In order to proceed with a claim for judicial review an initial application for permission will need to be made to the Administrative Court, this application is required to be made "promptly and in any event within three months of the decision". The initial permission application will decide if you have an arguable case, whether you are sufficiently materially affected by the decision to bring the claim. If you are granted permission to bring the claim it will proceed to a full hearing at the Administrative Court. Although there is no requirement for you to do so it is highly recommended that you seek independent legal advice before bringing forward a claim for Judicial Review.
3. If you are aggrieved by the decision of the Local Planning Authority to grant permission subject to conditions, you may appeal to the Secretary of State for the Environment in accordance with Section 78 of the Town and Country Planning Act 1990 within six months (see para 2a below) of the date of this notice. (Appeals must be made on a form which is obtainable from the Planning Inspectorate, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN, tel. 0303 444 5000 or online at <https://www.gov.uk/appeal-planning-decision>). You must use a Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the appeal form you require. The Secretary of State has power to allow a longer period for the giving of a notice of appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State is not required to entertain an appeal if it appears to him that the permission for the proposed development could not have been granted by the Local Planning Authority, or could not have been so granted otherwise than subject to the conditions imposed by them, having regard to the statutory requirements as set out in Section 78 of the Town and Country Planning Act 1990, to the provisions of the development order, and to the directions given under the order. He does not in practice refuse to entertain appeals solely because the decision by the Local Planning Authority was based on a direction given by him. Appeals- new time rules. Appeals relating to applications made to the Local Planning Authority on, or after, 5th September 2003 must be made within six months of the date of this notice.
4. If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application then, you must do so in accordance with the guidance found using the following link <https://www.gov.uk/appeal-enforcement-notice>.
5. If permission to develop land is granted subject to conditions, whether by the Local Planning Authority or by the Secretary of State for the Environment, and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, he may serve on the Council a purchase notice requiring that Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
6. In certain circumstances, a claim may be made against the Local Planning Authority for compensation, where permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
7. This permission covers only consent under the Town and Country Planning Acts and does not give permission to demolish a Listed Building, for which separate consent is required. Amongst other things the consent of the Council of the district in which the land is situated may be required under the Building Regulations and if the proposals affect land within the limits of the highway (that is between the highway fences or hedges) the separate consent of the Highway Authority may also be required. Steps to obtain the necessary further consents should be taken before proceeding with the development.

SHOPS, OFFICES, FACTORIES, EDUCATIONAL BUILDINGS & BUILDINGS TO WHICH THE PUBLIC ARE TO BE ADMITTED : ACCESS AND PROVISION FOR THE DISABLED PERSONS

- 1 The Local Planning Authority is required to bring to your attention the requirements of the Disabled Persons 1981, Building Regulations 1991 "Access and facilities for Disabled People" document M and the Chronically Sick & Disabled Act 1970 (as amended 1976) (Sections 4.7.8 and 8A) requiring the provision of access facilities, car parking and toilets for the disabled and the provision of signing indicating what provision has been made for disabled persons within the building. Your attention is also drawn to the Code of Practice B.S 5619 "Design of Housing for the convenience of Disabled People", 1978 and Code of Practice, B.S. 5810 : 1979, "Access for the Disabled to buildings" available from the British Standards Institution, 2 Park Street, London W1A 2BS. (Tel 071-629-9000) and (in so far as educational buildings are concerned), to Design Note 18 "Access for the Physically Disabled to Educational Buildings."
- 2 The buildings to which these requirements apply are :-
 - a) Buildings to which the public are to be admitted to which Section 4 of the Chronically Sick & Disabled Act 1970 (as amended 1976) applies.
 - b) Offices, Shops & Railway Premises as defined in the Offices, Shops & Railway Premises Act 1963 or premises deemed to fall within the Act.
 - c) Factories as defined by Section 175 of the Factories Act 1961.
Educational Buildings as defined by Section 29B of the Disabled Persons Act 1981.

PPNOTES (02/07/2014)

Hinckley & Bosworth
Borough Council

Start Notice

Important Information – Please keep this with your decision notice

Please read the above decision notice carefully and ensure that you understand and comply with the requirements of any planning conditions imposed.

If you require any further information about why a particular planning condition has been imposed or in respect of what information is needed to discharge your condition please contact the case officer who will be happy to advise of the requirements and information required.

We carry out a programme of site monitoring to check compliance with conditions in order to proactively manage the development and to ensure development is carried out in accordance with the planning permission granted.

Please ensure that any application for the discharge of pre-commencement conditions are carried out in a timely manner as this may take up to 8 weeks depending on the requirements of the condition. Please also be aware there is a charge to discharge conditions per request which means you can discharge conditions individually or group details together as a single request to discharge multiple planning conditions. The fee for discharging these pre-commencement conditions, can be found on the [planning portal](#).

We would be grateful if you could email the development address and application reference number with your contact details and the intended start date by email to planning@hinckley-bosworth.gov.uk or complete the form on the reverse.
