Reasons for comment:	
Comments:	Thank you for reconsulting the Forestry Commission on this proposal. From the amended plans, it is difficult to assess what is new habitat creation and what is public open space. Woodland planting should be in keeping with the wider landscape area and should consider habitat connectivity with the existing woodland adjacent to the site.

It may be beneficial for the applicant to liaise with the National Forest regarding where new woodland creation would be most beneficial.

Please also consider our earlier comments.

Best wishes

Sandra
