Comments Details

Comments:

Thank you for your consultation in respect of the above planning application. The County Council has considered the application, having regard to the Development Plan, National Planning Policy Guidance and other relevant material considerations. In this particular instance, the County Council, as Minerals and Waste Planning Authority (MWPA), comments as follows;

The development site is located within a mineral safeguarding area for Igneous rock. However, considering the scale of the proposal, being the replacement of fencing for an existing development, it is unlikely to impact the mineral deposit any more than the current situation. Therefore, a Mineral Assessment is not required for this proposal. Additionally, the site is not located near any waste sites

therefore, the MWPA does not have any objections from a mineral and waste safeguarding perspective.

Kind regards
