Comments Details

Comments:	The Market Bosworth Society was dismayed to hear of a large scale felling of trees on land belonging to the Bosworth Academy. This has caused significant distress to neighbours. We wonder why such drastic works have been undertaken especially during the bird nesting season. It also does not accord with current thinking that trees can help to reduce climate change. It appears to be at odds with Academy policy and a poor example to young minds. The Society does recognise that trees must be pruned to maintain them in a healthy and useful condition. We ask that the Borough Tree Surveyor examines the trees and sets limits regarding the amount of pruning to be allowed. We believe that a distance of 1 metre should be sufficient to protect a building from fouling by a tree. This may depend upon the age and type of the tree. As the trees form the frontage of the Community Library we are eager to ensure that the street scene is not adversely affected and changes are kept to a minimum.
