Part I - Particulars of Application

Date of Application

7 July 2023

Application No.

23/00673/OUT

Particulars and location of development:

Residential development of up to 343 dwellings (Class C3), including provision of public open space, associated infrastructure and all matters (access only) (re-submission of 22/01037/OUT) reserved except access.

Land Opposite And South Of Pumping Station Aston Flamville Road Burbage Leicestershire

Part II - Particulars of decision:

In dealing with the application, through ongoing negotiation the local planning authority have worked with the applicant in a positive and proactive manner by offering a pre-application advice service and by seeking solutions to problems arising in relation to dealing with the planning application and this has resulted in the approval of the application. The Local Planning Authority has therefore acted pro-actively to secure a sustainable form of development in line with the requirements of the National Planning Policy Framework (paragraph 38) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).

In pursuance of its powers under the Town and Country Planning Act 1990, the Hinckley and Bosworth Borough Council grants outline planning permission for the carrying out of the development referred to in Part I hereof, in accordance with the application and plans submitted, subject to the following condition(s) :-

1. Application for the approval of reserved matters shall be made within two years from the date of this permission and the development shall be begun not later than two years from the date of approval of the last of the reserved matters to be approved.

Reason: To comply with the requirements of Section 92 of the Town and Country Planning Act

2. No development shall be commenced until plans and particulars of "the reserved matters" referred to in the above conditions relating to the: appearance; landscaping; layout; and scale shall be submitted to and approved, in writing, by the local planning authority. The development shall be carried out in accordance with the approved detailed.

Reason: To ensure a satisfactory form of development in accordance with Policies DM1 and DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

IMPORTANT – PLEASE REFER TO THE NOTES AT THE END OF THIS DOCUMENT

3. No development shall take place until a phasing plan has been submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved phasing plan, unless otherwise agreed in writing with the Local Planning Authority.

Reason: To ensure the satisfactory phasing of the development and to ensure that utility infrastructure is delivered in a coordinated and planned way in accordance with Policy DM3 of adopted Site Allocations and Development Management Policies Development Plan Document (2016).

4. Any reserved matters application shall be accompanied by a scheme which details the proposed housing mix for the relevant phase of the development which should be in accordance with the Council's adopted Development Plan and the housing needs of the area. The development shall then be completed in accordance with the approved details.

Reason: To ensure an appropriate housing mix to meet the housing needs of the locality is provided in accordance with Policy 16 of the Core Strategy 2009.

5. The development hereby permitted shall not be carried out otherwise than in complete accordance with the submitted application details, as follows:

- Site Location Plan - (7162-L-01 Rev A) received 03/11/22
- Proposed Access Strategy (Tetra Tech A109159-TTE-00-ZZ-DR-H 0004-P07).

Reason: To ensure a satisfactory form of development in accordance with Policies DM1 and DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

6. No development in each phase shall commence on site until such time as the existing and proposed ground levels of the site and proposed finished floor levels in the relevant phase have been submitted to and approved in writing by the local planning authority. The development shall then be implemented in accordance with the approved details.

Reason: To ensure that the development has a satisfactory appearance and in the interests of visual amenity in accordance with Policy DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

7. No development shall commence in any phase until a scheme that makes provision for waste and recycling storage and collection within that phase has been submitted in writing to and approved in writing by the Local Planning Authority. The details should address accessibility to storage facilities and adequate collection point space at the adopted highway boundary. The approved scheme shall be implemented in accordance with the agreed details.

Reason: To ensure the bin storage on site is not detrimental to the street scene and overall design of the scheme in accordance with Policy DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

8. A 'Building for a Healthy Life' assessment shall be submitted as part of the reserved matters submission details for this development. The details of the development shall incorporate the 12 considerations set out within the 'Building for a Healthy Life' document (Homes England) and parameters shall be agreed with the local planning authority and implemented on site in accordance with the approved details and retained thereafter.

Reason: To ensure the development is appropriate to the local area and meets amenity standards in accordance with policy DM10 of the Site Allocations and Development Management Policies DPD, Policy 16 of the Core Strategy, and the Good Design Guide SPD.

9. No development approved by this permission shall be commenced in each phase until a scheme for the investigation of any potential land contamination within the relevant phase has been submitted in writing to and agreed in writing by the Local Planning Authority which shall include details of how any contamination shall be dealt with. The approved scheme shall be implemented in accordance with the agreed details and any remediation works so approved shall be carried out prior to the site first being occupied.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring

land are minimised in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

10. If during development, contamination not previously identified is found to be present at the site, no further development shall take place in the relevant phase until an addendum to the scheme for the investigation of all potential land contamination is submitted in writing to and approved in writing by the Local Planning Authority which shall include details of how the unsuspected contamination shall be dealt with. Any remediation works so approved shall be carried out prior to the first dwelling being occupied in the relevant phase.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

11. Upon completion of the remediation works a verification report shall be submitted to and approved by the Local Planning Authority. The verification report shall include details of the proposed remediation works and quality assurance certificates to show that the works have been carried out in full in accordance with the approved methodology. Details of any post-remedial sampling and analysis to show the site has reached the required clean-up criteria shall be included in the verification report together with the necessary documentation detailing what waste materials have been removed from the site.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

12. Prior to commencement of development a Construction Environmental Management Plan shall be submitted to and agreed in writing by the LPA. The plan shall detail how, during the site preparation and construction phase of the development, the impact on existing and proposed residential premises and the environment shall be prevented or mitigated from dust, odour, noise, smoke, light and land contamination. The plan shall detail how such controls will be monitored. The plan will provide a procedure for the investigation of complaints. The agreed details shall be implemented throughout the course of the development.

Site preparation and construction shall be limited to the following hours;
Monday - Friday 07:30 - 18:00
Saturday 08:00 - 13:00
No working on Sundays and Bank Holidays

Reason: To minimise disruption to the neighbouring residents in accordance with Policy DM7 and DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

13. No development shall commence on the site until such time as a construction traffic management plan, including as a minimum details of the routing of construction traffic, wheel cleansing facilities, vehicle parking facilities, and a timetable for their provision, has been submitted to and approved in writing by the Local Planning Authority. The construction of the development shall thereafter be carried out in accordance with the approved details and timetable.

Reason: To reduce the possibility of deleterious material (mud, stones etc.) being deposited in the highway and becoming a hazard for road users, to ensure that construction traffic does not use unsatisfactory roads and lead to on-street parking problems in the area to accord with policy DM17 of the adopted Site Allocations and Development Management Policies DPD 2016.

14. No part of the development hereby permitted shall be occupied until such time as the access arrangements and proposed footway improvements shown on Drawing A109159-TTE-00-ZZ-DR-H-0004-P07 have been delivered in full.

Reason: To ensure that vehicles entering and leaving the site may pass each other clear of the highway, in a slow and controlled manner, in the interests of general highway safety and in accordance with policy DM17 of the adopted Site Allocations and Development Management Policies DPD 2016 and the National Planning Policy Framework (2023).

15. Prior to the commencement of each phase of development, a Biodiversity Net Gain Strategy (BNGS) and a Project Implementation Plan (PIP) for that phase shall be submitted to and approved in writing

by the local planning authority, unless a BNGS and PIP have previously been submitted to and approved in writing by the local planning authority for the whole site. The BNGS shall detail proposals to redress loss of biodiversity and the mitigation strategy proposed shall include all on and off-site habitats required to deliver a net gain. The BNGS shall use the Biodiversity Metric 4.0 Calculation Tool unless an amended statutory Biodiversity Metric Calculator associated with the Environment Act 2021 becomes mandatory.

The PIP shall detail the delivery of ecological BNG mitigation and compensation, in accordance with the approved BNG strategy. The PIP shall include timescales for implementation, and an ongoing management and maintenance plan. The BNGS and PIP shall be implemented, managed and maintained in accordance with the approved details.

On completion of each phase, an update of the BNG Strategy shall be submitted to the local planning authority to demonstrate how a BNG has been delivered for that phase.

Reason: To ensure that the development does not cause harm to any protected species or their habitats in accordance with Policy DM6 of the Site Allocations and Development Management Policies DPD 2016, and to ensure that the development achieves Biodiversity Net Gain in accordance with paragraph 180 of the NPPF (2023).

16. No development or site clearance shall take place until an ecological mitigation and enhancement strategy has been submitted to and approved in writing by the LPA. All works are to proceed strictly in accordance with the approved scheme.

Reason: To ensure that the development does not cause harm to any protected species or their habitats in accordance with Policy DM6 of the Site Allocations and Development Management Policies DPD 2016 and Government guidance contained within the National Planning Policy Framework (2023).

17. No development shall take place/commence until the necessary programme of archaeological work has been completed. The programme will commence with an initial phase of trial trenching to inform a final archaeological mitigation scheme. Each stage will be completed in accordance with a written scheme of investigation (WSI), which has been submitted to and approved by the local planning authority in writing. For land that is included within the WSI, no demolition/development shall take place other than in accordance with the agreed mitigation WSI, which shall include the statement of significance and research objectives, and

- The programme and methodology of site investigation and recording and the nomination of a competent person(s) or organisation to undertake the agreed works

- The programme for post-investigation assessment and subsequent analysis, publication & dissemination and deposition of resulting material. This part of the condition shall not be discharged until these elements have been fulfilled in accordance with the programme set out in the WSI.

Reason: To ensure satisfactory archaeological investigation, recording, dissemination and archiving in accordance with Policy DM12 and DM13 of the Site Allocations and Development Management Policies DPD 2016.

18. Prior to the commencement of development, a noise assessment to determine which, if any, residential properties are affected by noise from Woodside garage, Burbage dance studio and the road network shall be submitted to and approved, in writing, by the Local Planning Authority. The assessment shall have been undertaken by a competent person, shall include periods for daytime as 0700-2300 hours and night-time as 2300-0700 hours, and identify appropriate noise mitigation measures. All residential units shall thereafter be designed so as not to exceed the noise level criteria as referenced in BS8233:2014 Guidance on sound insulation and noise reduction for buildings.

Reason: To ensure that the development hereby permitted is not detrimental to the amenity of the future residents by reason of undue external noise where there is insufficient information within the submitted application, in accordance with Policy DM10 of the SADMP.

19. No approval of reserved matters shall take place until such time as the following details have been submitted to, and approved in writing by the Local Planning Authority. Any subsequent design must be carried out in accordance with these approved details.

- a. Modelling updated to reflect upper end climate change allowance for both

the proposed and existing scenarios.

- b. Full details of flood compensations areas supported by revised modelling, unless modelling/layout demonstrates that compensation is not required.
- c. Details demonstrating finished floor levels are set at least 300mm above the modelled 1 in 100 year plus upper end climate change allowance.
- d. Full consideration of source control SuDS.

Reason: To prevent flooding by ensuring the satisfactory placement and level of development relative to the existing watercourses and to minimise off-site surface water pollution risk in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

20. No development approved by this planning permission shall take place until such time as a surface water drainage scheme has been submitted to, and approved in writing by the Local Planning Authority.

Reason: To prevent flooding by ensuring the satisfactory storage and disposal of surface water from the site in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

21. No development approved by this planning permission shall take place until such time as details in relation to the management of surface water on site during construction of the development has been submitted to, and approved in writing by the Local Planning Authority.

Reason: To prevent an increase in flood risk, maintain the existing surface water runoff quality, and to prevent damage to the final surface water management systems through the entire development construction phase in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

22. No occupation of the development approved by this planning permission shall take place until such time as details in relation to the long-term maintenance of the surface water drainage system within the development have been submitted to and approved in writing by the Local Planning Authority.

Reason: To establish a suitable maintenance regime that may be monitored over time; that will ensure the long-term performance, both in terms of flood risk and water quality, of the surface water drainage system (including sustainable drainage systems) within the proposed development in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

23. No development approved by this planning permission shall take place until such time as infiltration testing has been carried out (or suitable evidence to preclude testing) to confirm or otherwise, the suitability of the site for the use of infiltration as a drainage element, has been submitted to and approved in writing by the Local Planning Authority.

Reason: To demonstrate that the site is suitable (or otherwise) for the use of infiltration techniques as part of the drainage strategy in accordance with Policy DM7 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

24. No development shall take place in any phase until an Arboricultural Method Statement for the relevant phase, including details of the position, species, size and condition of each existing tree and hedgerow on and adjacent to the phase, and identifying those trees and hedgerows to be retained, has first been submitted to and approved in writing by the local planning authority. This shall include full details of measures for the protection of trees and hedgerows to be retained during the course of development. Thereafter, the development shall be carried out in accordance with the approved Arboricultural Method Statement.

Reason: To ensure that trees and hedgerows are retained and adequately protected during and after construction in the interests of visual amenity and biodiversity, in accordance with Policy DM6 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

25. No part of the development hereby permitted shall be first occupied until an amended full Travel Plan

which sets out actions and measures with quantifiable outputs and outcome targets has been submitted to and agreed in writing by the Local Planning Authority. Thereafter the agreed Travel Plan shall be implemented in accordance with the approved details.

Reason: To reduce the need to travel by single occupancy vehicle and to promote the use of sustainable modes of transport in accordance with the National Planning Policy Framework (2023).

26. No dwelling hereby approved shall be occupied unless and until a Public Transport Strategy has been submitted to and agreed in writing by the Local Planning Authority. The Public Transport Strategy shall include details of a bus service that shall: (i) be provided by the developer; (ii) run, as a minimum, between the site (or a location no more than 400m from one of the site's boundaries), Hinckley Railway Station and Hinckley Town Centre; (iii) shall operate either on a demand responsive basis or to a specified timetable; and (iv) shall operate Mondays to Fridays between 0700 hours and 0930 hours, and 1600 hours and 1830 hours. The Public Transport Strategy shall also include details of any bus stop infrastructure that is proposed to be delivered in connection with the proposed service and shall describe when the bus service will be introduced and for how many years it will operate. The Strategy shall be implemented as approved unless, by the time at which it is due to be delivered, an alternative service has already been provided by either the Local Highway Authority or a different developer, and the Local Planning Authority is satisfied that the alternative service will provide appropriate public transport links between the site, Hinckley Railway Station and Hinckley Town Centre.

Reason: To reduce the need to travel by single occupancy vehicle and to promote the use of sustainable modes of transport in accordance with the National Planning Policy Framework (2023).

27. No development shall commence until details of the proposed pedestrian link to Dorchester Road have been submitted to and approved in writing by the Local Planning Authority. The proposed pedestrian link shall be provided in accordance with the approved details.

Reason: To reduce the need to travel by single occupancy vehicle and to promote the use of sustainable modes of transport in accordance with the National Planning Policy Framework (2023).

28. No development shall commence until details of the proposed pedestrian link from the site to PROW U56 have been submitted to and approved in writing by the local planning authority. The proposed pedestrian link shall be provided in accordance with the approved details.

Reason: To reduce the need to travel by single occupancy vehicle and to promote the use of sustainable modes of transport in accordance with the National Planning Policy Framework (2023).

29. No development shall commence until a scheme of highway improvements for the junction of Burbage Road/Hinckley Road/ Sapcote Road have been submitted to and approved in writing by the Local Planning Authority. The scheme shall be designed in broad accordance with the details shown on (Drawing No. A109159-TTE-XX-XX-DR-H-014-P01). No dwellings shall be occupied until improvements have been made to the Burbage Road/ Sapcote Road/ Hinckley Road Junction in accordance with the approved details, unless by the time at which a scheme is to be submitted for approval or is due to be delivered, a scheme to improve the Burbage Road/ Sapcote Road/ Hinckley Road junction has already been constructed, or is being constructed by another party.

Reason: To mitigate the impact of the development, in the general interests of highway safety and in accordance with the National Planning Policy Framework (2023).

30. No development shall commence until a scheme of highway improvements for the junction of Brookside/ Elm Tree Road / Burbage Road have been submitted to and approved in writing by the Local Planning Authority. The improvements shall be designed in broad accordance with the details shown on (Drawing No. A109159-TTE-00-ZZ-DR-H-0033-P01). No dwellings shall be occupied until improvements have been made to the Brookside/ Elm Tree Road / Burbage Road Junction in accordance with the approved details.

Reason: To mitigate the impact of the development, in the general interests of highway safety and in accordance with the National Planning Policy Framework (2023).

31. No development shall commence until a scheme of highway improvements at the Park Road/ London Road junction has been submitted and approved in writing by the Local Planning Authority. The improvements shall be designed in general accordance with the details shown on (Drawing No. A109159-TTE-00-ZZ-DR-H-0034-P01). No dwellings shall be occupied until the approved scheme has

been implemented in accordance with the approved details.

Reason: To mitigate the impact of the development, in the general interests of highway safety and in accordance with the National Planning Policy Framework (2023).

32. No development shall commence until a scheme of footway widening on the western side of Burbage Road between Hinckley Road and Brookside has been submitted to and approved in writing by the Local Planning Authority. The proposed improvements shall be designed in broad accordance with the details shown on (Drawing No. A109159-TTE-00-ZZ-DR-H-0031-P01). No dwellings shall be occupied until the scheme has been provided in accordance with the approved details.

Reason: To mitigate the impact of the development, in the general interests of highway safety and in accordance with the National Planning Policy Framework (2023).

Christopher Brown MRTPI
Head of Planning

Date:- 8 April 2024

NOTES

1. It will be most helpful if the application number shown overleaf is quoted in all correspondence.
2. If you consider that this decision has been made invalidly through the Council failing to follow a procedure correctly, not having the legal power to make the decision in the way it did or through its decision being so unreasonable as no reasonable local authority would make the same decision based on the same facts, then you may enter a claim for judicial review to quash the decision. In order to proceed with a claim for judicial review an initial application for permission will need to be made to the Administrative Court, this application is required to be made "promptly and in any event within three months of the decision". The initial permission application will decide if you have an arguable case, whether you are sufficiently materially affected by the decision to bring the claim. If you are granted permission to bring the claim it will proceed to a full hearing at the Administrative Court. Although there is no requirement for you to do so it is highly recommended that you seek independent legal advice before bringing forward a claim for Judicial Review.
3. If you are aggrieved by the decision of the Local Planning Authority to grant permission subject to conditions, you may appeal to the Secretary of State for the Environment in accordance with Section 78 of the Town and Country Planning Act 1990 within **six months (see para 2a below)** of the date of this notice. (Appeals must be made on a form which is obtainable from the Planning Inspectorate, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN, tel. 0303 444 5000 or online at <https://www.gov.uk/appeal-planning-decision>). The Secretary of State has power to allow a longer period for the giving of a notice of appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State is not required to entertain an appeal if it appears to him that the permission for the proposed development could not have been granted by the Local Planning Authority, or could not have been so granted otherwise than subject to the conditions imposed by them, having regard to the statutory requirements as set out in Section 78 of the Town and Country Planning Act 1990, to the provisions of the development order, and to directions given under the order. He does not in practice refuse to entertain appeals solely because the decision by the Local Planning Authority was based on a direction given by him. Appeals- new time rules. Appeals relating to applications made to the Local Planning Authority on, or after, 5th September 2003 must be made within **six months** of the date of this notice.
4. If permission to develop land is granted permission subject to conditions, whether by the Local Planning Authority or by the Secretary of State for the Environment, and the owner claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, he may serve on the Council a purchase notice requiring that Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
5. In certain circumstances, a claim may be made against the Local Planning Authority for compensation, where planning permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
6. This permission covers only consent under the Town and Country Planning Acts and does not give permission to demolish a Listed Building, for which separate consent is required. Amongst other things the consent of the Council may be required under the Building Regulations and if the proposals affect land within the limits of the highway (that is between the highway fences or hedges) the separate consent of the Highway Authority may also be required. Steps to obtain the necessary further consents should be taken before proceeding with the development.

SHOPS, OFFICES, FACTORIES, EDUCATIONAL BUILDINGS & BUILDINGS TO WHICH THE PUBLIC ARE TO BE ADMITTED : ACCESS AND PROVISION FOR THE DISABLED PERSONS

- 1 The Local Planning Authority is required to bring to your attention the requirements of the Disabled Persons 1981, Building Regulations 1991 "Access and facilities for Disabled People" document M and the Chronically Sick & Disabled Act 1970 (as amended 1976) (Sections 4.7.8 and 8A) requiring the provision of access facilities, car parking and toilets for the disabled and the provision of signing indicating what provision has been made for disabled persons within the building. Your attention is also drawn to the Code of Practice BS 5619 "Design of Housing for the convenience of Disabled People", 1978 and Code of Practice, BS 5810 : 1979, "Access for the Disabled to buildings" available from the British Standards Institution, 2 Park Street, London W1A 2BS. (Tel 071-629-9000) and (in so far as educational buildings are concerned), to Design Note 18 "Access for the Physically Disabled to Educational Buildings."
- 2 The buildings to which these requirements apply are :-
 - a) Buildings to which the public are to be admitted to which Section 4 of the Chronically Sick & Disabled Act 1970 (as amended 1976) applies.
 - b) Offices, Shops & Railway Premises as defined in the Offices, Shops & Railway Premises Act 1963 or premises deemed to fall within the Act.
 - c) Factories as defined by Section 175 of the Factories Act 1961.

OPNOTES (02/07/2014)

Hinckley & Bosworth
Borough Council

Start Notice

Important Information – Please keep this with your decision notice

Please read the above decision notice carefully and ensure that you understand and comply with the requirements of any planning conditions imposed.

If you require any further information about why a particular planning condition has been imposed or in respect of what information is needed to discharge your condition please contact the case officer who will be happy to advise of the requirements and information required.

We carry out a programme of site monitoring to check compliance with conditions in order to proactively manage the development and to ensure development is carried out in accordance with the planning permission granted.

Please ensure that any application for the discharge of pre-commencement conditions are carried out in a timely manner as this may take up to 8 weeks depending on the requirements of the condition. Please also be aware there is a charge to discharge conditions per request which means you can discharge conditions individually or group details together as a single request to discharge multiple planning conditions. The fee for discharging these pre-commence conditions, can be found on the [planning portal](#).

We would be grateful if you could email the development address and application reference number with your contact details and the intended start date by email to planning@hinckley-bosworth.gov.uk or complete the form on the reverse.
