<ul style="list-style-type: none"> Pre-development habitat maps and condition assessment sheets have been supplied. No objections.
<ul style="list-style-type: none"> Currently, the 10% Biodiversity Net Gain will not be met on site with a -11.57% decrease in Habitat Units.
<ul style="list-style-type: none"> The post development value of the site will still need to achieve a 10% net gain by discharge of the Biodiversity Gain Plan condition. The Biodiversity Net Gain Statement and Bat Report is stating this will be achieved by purchase of off-site units from a biobank.
<ul style="list-style-type: none"> The baseline values have been assessed which are accepted, at post-development, values will be confirmed at the discharge of the Biodiversity Gain Plan condition.
