Subject: FW: Forest Hill Arb Update - re-consultation request
Date: 28 April 2026 13:04:57
Attachments: [Forest Hill Golf Club Tree Addendum April 2026.pdf](#)

Dear Planning,

Please could the email below and attachment be added to Enterprise and please could the Tree officer be re-consulted for 21 days as soon as possible?

Thanks very much.

Subject: Forest Hill Arb Update

Hello Alex

Further to the consultee comments requesting updated arboricultural information, please find enclosed Addendum 01 from Elite Ecology in relation to the land adjacent to Forest Hill Golf Club,

The Addendum has been prepared to be read alongside the original BS5837:2012 Tree Survey Report dated 06/11/2024. It does not replace the original report, except where specifically stated.

The purpose of the Addendum is to confirm that there have been no material changes to the site, recorded tree stock, tree condition, BS5837 categorisation or arboricultural constraints since the original report was prepared. The original tree survey findings, constraints, recommendations and design guidance therefore remain valid.

In summary:

- the original survey recorded two individual trees, three tree groups, three hedgerows and one woodland;
- no additional trees, tree groups, hedgerows or woodland areas requiring separate assessment have been identified;
- the original BS5837 categories remain unchanged;
- no further tree works or removals are recommended as part of the Addendum;
- the Category A woodland W1 remains the principal arboricultural feature adjacent to the survey area; and
- the constraints associated with G1 and the retained hedgerows remain relevant to the layout, surfacing, construction methodology and protection of retained vegetation.

Where considered necessary by the Local Planning Authority, any detailed tree protection measures can be secured through an appropriately worded planning condition.

On this basis, we trust that the original BS5837:2012 Tree Survey Report, read together with the enclosed Addendum 01, provides an appropriate updated arboricultural position for the application.

Kind regards,

David
