The 1st 3 pictures is the single duplex that face inwards. Plot 27.

The 4th picture is for Plot 20 to confirm that the privacy fencing has gone up on the terraces.

The frames for the bins are up but we are just waiting on board for the sides and roof. I have moved the recycling bin to where the window is. I cannot move the bins anywhere else as the regulations state we cannot be more than 5 meters from the gate.

Please contact me if you require any further information.
