Submission Type:
Customer wishes to comment on the Planning Application.

Comments:
The applicant has applied to fell a mature Silver birch tree situated in the rear garden.
Height: 17m. Crown spread: 10m. Stem dia.: 60cm.
The tree is in good condition and is a relatively large specimen for the species. The dense growth of ivy has recently been severed before it could start smothering the crown.

It is clearly visible from Melton Street with a good life expectancy. Although the garden is narrow, the tree is fairly suitable for its position.
The number of other mature trees in this area is limited.
Using the TEMPO method of evaluation the tree scores 17 points - definitely merits a TPO.
I recommend protection by TPO.
