Subject: Fwd: Bat Survey: Outbuildings at Barley Mow Cottage, Main Street, Cadeby, CV13 0AX

Sirs

We have a planning application sent to you by our agent Richard Nowak of Ace Designs. We were told that a Bat Survey is required to enable the application to be registered.

Please find attached the completed bat survey. There is no evidence of any bats being present.

Could you lodge this report with our application and confirm to me that the application can now proceed.

Let me know if you require any further information.

Many thanks

Richard Evans

Richard,

Further to the completion of the bat survey within your two outbuildings, please find attached an electronic copy of report RT-MME-110523. As previously discussed the report has concluded that no bats are currently roosting within the two structures.

I confirm that we will have a hard copy in the post along with our invoice for works completed on the project.

If you have any queries please do not hesitate to contact me and may I wish you all the best with your application.

Kind regards,

John
