RECEIVED

Dear Cathy

PLANNING PERMISSION REF NO. 09/00141/DEEM
DISCHARGE OF PLANNING CONDITION 6 – ROOF TOP PLANT SCREENING

Following receipt of the Planning Permission Notice and Conditions dated 16 September 2009 for the above planning permission, on behalf of our client please find enclosed samples of the proposed perforated metal screening for the Plant Area on the Third Floor Roof. We would be grateful if you would consider this as part of the pre-commencement conditions information issued previously

As discussed in our recent telephone conversation, unfortunately we are unable to obtain the 'actual' style of perforated metal (4-6mm perforations) as Corus appear to only keep samples from end of production runs, but they have included an acetate sheet with the true print size of the 4-6mm perforations, which together with the reference sample submitted (3.5-5mm) will hopefully be adequate.

We confirm that the finished colour will be to match RAL 7012 (Grey) to match general metalwork on the building and sample, as submitted previously.

We trust the enclosed information is satisfactory, but if you have any queries or require further information, please do not hesitate to contact us.

Yours sincerely

A D Smith
