

Sport in Desford - Proposed additional solar array on NW facing roof

Scale: 1:100

North west elevation of Sport in Desford Clubhouse

Peckleton Lane, Desford, Leicester, LE9 9JU

Actual layout of panels may vary slightly due to chosen contractor's requirements but they will always be in neat straight rows and at least one metre from the roof edges

Two apparent central sky lights were blanked off 15 years ago, so can be covered by solar panels
