

SPECTRUM

ARCHITECTURAL GLAZING

Spectrum have been supplying and installing high performance composite windows & doors for over 15 years.

We supply throughout the UK and have worked in just about every county. We pride ourselves on being a friendly and approachable company.

Our work includes new and self-build homes, extensions, renovations and replacement windows. One of our specialities is large-scale glazing such as huge triple-glazed sliding glass doors.

We only supply the finest windows & doors from Germany, Austria and Denmark. The three brands we use are the finest quality products we have come across – they are all premium brands with high levels of engineering, finish, performance and innovation.

These are products which enhance the appearance, style and value of your home but also contribute to your lifestyle. Their high performance will help your home become more comfortable, light and airy, warm in the winter, cool in the summer and bring you closer to the outdoors.

Excellence Through Experience

Glass box extension in London

Internorm

Internorm windows are renowned for their outstanding performance, exceptional quality and innovation and they are probably the best windows currently available in the UK. Internorm were first established in 1931 in Linz, Austria, and have gone on to be one of Europe's largest window manufacturers, employing 5000 people and selling in 100 countries worldwide. Spectrum have been a partner for 10 years, a "1st Window Partner" for 5 years, and were awarded the highest 'Gold Level' 3 years ago.

KASTRUP[®]

Kastrup is 100% Danish. That means a commitment to innovation, purity of design and high performance. Every Kastrup window and door we install is made from FSC timber, usually with a fibre-reinforced rebate and coated aluminium cladding, and comes with triple glazing as standard. Every window is guaranteed 100% manufactured in West Jutland, Denmark.

Kastrup is a family company, founded 25 years ago by Carsten Kastrup and now run by his son, Lasse Kastrup.

Our relationship with Kastrup goes back over 12 years when we became the official Kastrup distributor in the UK.

- Timber and Aluminium/Timber
- 100% Made in Denmark
- Triple glazing as standard
- Innovative designs including slim-profiles, Passivhaus standard
- PAS 24 certified for security
- High-performance windows, entrance doors, french doors & sliding doors

We believe that with Danish craftsmanship and innovation, we must always strive for an even higher product standard
