Contact: Robert Tollyfield
Phone: 0116 305 2733
Email: planningcontrol@leics.gov.uk

APPLICATION DETAILS:

Planning Application Number: 24/00352/FUL
LCC Reference Number: 2024/2084/04

Description of Application: Erection of substation

Location of Application: Photovoltaic Installation Crown Farm Bagworth Road
Nailstone Nuneaton

Thank you for your consultation in respect of the above planning application. The County Council has considered the application, having regard to the Development Plan, National Planning Policy Guidance and other relevant material considerations. In this particular instance, the County Council, as Minerals and Waste Planning Authority (MWPA), comments as follows;

The application site is not located close to any waste sites but is within a Mineral Safeguarding Area for Sand & Gravel. However, given the small scale nature of the development, and its proximity to the existing solar farm, it is unlikely to have an impact in terms of sterilising the mineral reserve. Furthermore, the sites existing use means that the mineral is unlikely to be worked in the near future. A mineral assessment is therefore not required in this instance

As such, the MWPA raises no objections to the proposed development from a minerals & waste safeguarding perspective.

Yours Sincerely,

R Tollyfield

Robert Tollyfield
