Recommend Refusal	
Holding Objection - Further information required	
REASON FOR RECOMMENDATION:	
- The proposed works consist of a single storey side extension and a garage conversion. - The site is located within a small village and is surrounded by mature gardens and tree lines, which provide good habitat connectivity to the wider agricultural landscape and the nearby watercourse, Slate Brook. This offers potential foraging and commuting habitat for protected species. - However, the application is supported by photographs of the existing dwelling, which appears to be in good condition with no visible gaps in the roof, mortar, or brickwork. As the works are single storey and do not tie into the existing roof structure, the impact on local ecology is likely to be minimal, and no further surveys are required. - We have no objection.
