

CONSULTATION TEMPLATE RESPONSE FROM LEICESTERSHIRE COUNTY COUNCIL:

ECOLOGY AND BIODIVERSITY PLANNING ADVICE

COUNTY, DISTRICT OR BOROUGH	Hinckley and Bosworth Borough Council	
APPLICATION NUMBER	26/00225/HOU	
ADDRESS	The Briary Bullfurlong Lane Burbage Hinckley Leicestershire LE10 2HQ	
DESCRIPTION OF DEVELOPMENT	Two storey rear extension	
PLANNING CASE OFFICER	Zahra Jam-Rotbeh	
DEPARTMENT	Ecology	
PLANNING ECOLOGY OFFICER	Jemma Bett	
DATE OF COMMENTS	31 March 2026	
ECOLOGICAL DOCUMENTS REVIEWED:		
• n/a • Proposed Plans – 08b (Feb 2026) • Existing Plans - 00 (June 2025)		
SUMMARY RECOMMENDATION:		
No comment		
No objection (for recommended conditions or informatives- see below)		
Recommend Refusal		
Holding Objection - Further information required		✓
REASON FOR RECOMMENDATION:		
• The proposed works consist of a two-storey rear extension sited on existing garden. Surrounding the site are mature gardens and tree lines, which lead out into the wider agricultural landscape and provide good habitat connectivity for protected species such as bats. • The proposed extension involves alterations to the existing roof, roofline, loft space, soffits and tiles which provide potential access and suitability for roosting bats. Bats are particularly associated with the roof structure of buildings, including lofts, rafters, beams, gables, eaves, soffits, flashing, ridge-tile, chimneys, the under-tile area, etc. but may also be present in crevices in stone or brickwork and in cavity walls. • Therefore, a Preliminary Roost Assessment (PRA) is required to assess the building and garage for potential bat roosting features. This should also scope in any potential disturbance to other protected species.		

• The PRA can take place any time of the year. This must be completed by a suitably licenced ecologist and the Natural England licence reference number of the surveyor(s) be provided. • Scope of the ecological survey (but is not limited to): - Internal and external inspection of the building. - Photographs of any potential roost features (PRFs), with locations clearly marked on annotated images showing the entire building and cardinal directions. - Clear justification regarding the assessment of the structures roosting potential (negligible, low, medium, or high) and recommendations for any further surveys. - Identification of habitats onsite that may support protected species and assessment of any likelihood of direct or indirect disturbance. - Details of any proposed mitigation, licensing requirements or enhancement measures for protected species. • In line with the National Planning Policy Framework (NPPF), the application must demonstrate measurable net gains for biodiversity. The ecologist should recommend enhancements such as bat and bird boxes, specifying the make/model and location, and include these on annotated images or elevation plans. • Additionally, the site is located within a 'Swift Alert' zone as it is within 250m of recorded nest sites. Swifts are a declining species, and a priority species in our Local Biodiversity Action Plan. Therefore, we request the PRA to include any potential opportunities for an integrated swift nest box on the new elevation. • We have a holding objection. Please note that ODPM Regulations require protected species surveys to be submitted prior to determination of a planning application.
ANY RECOMMENDED CONDITIONS TO BE APPLIED:
•
ANY RECOMMENDED INFORMATIVES TO BE APPLIED:
•
IN THE CASE OF DISCHARGE OF CONDITIONS ONLY: (Please confirm which condition(s) is/are being discharged)
•

Note for applicants: Please be aware that this advice is provided to the Local Planning Authority through a Service Level Agreement between the Local Planning Authority and Leicestershire County Council Ecology Team. Its purpose is to discharge the legal duties of the determining authority under The Local Authorities (Functions and Responsibilities) Regulations (2000), Regulations 4.

If you have any queries about the content, please correspond directly with the Planning Officer assigned to the planning application or discharge of condition application. We are unable to respond directly to applicant enquiries regarding the advice that we have provided to the determining authority.

The following legislation is used to assist in the assessment of planning applications:

Legislation source	Reference
National Planning Policy Framework	Paragraphs relevant to biodiversity, biodiversity net gain, ecological connectivity and protected species
Environment Act 2021	Mandatory Net Gain Biodiversity Duty Local Nature Recovery Strategy

District or Borough Local Plan and supporting SPD's	Local Plan policy
ODPM circular 06/2005: Biodiversity and Geological Conservation	Requirement for species survey work and mitigation recommendations to be carried out prior to the determination of a planning application. Paras. 98 and 99
NERC Act 2006	Biodiversity Duty (see also Environment Act 2021) Section 41, habitats and species of Principal Importance (previously BAP)
Various International, European and National laws in relation to the protection of species and habitats	International and national site protection: Ramsar sites (from Ramsar Convention), Habitat and Birds Directives (Natura 2000 sites include SAC's and SPA's), SSSI's, National Nature Reserves, Local Wildlife Sites, Local Nature Reserves. Habitats and Species protection: Habitat and Species Regulations (protected sites and species). Wildlife and Countryside Act 1981 (as amended including special Schedule 1), Natural England Standing Advice. Badger Act.
