
APPLICATION DETAILS:

Planning Application Number: 25/00705/ROW

Public Rights of Way Case Reference: 2679

Application Address: Land North Of Hill Top Farm Hill Top Earl Shilton Leicestershire

Description of Application: Divert a public right of way - Permanently close T93 due to clashes with the new proposed development and permanently divert it

Applicant Name: Lewis Monksfield

Date:

Hyperlink:

GENERAL DETAILS:

Access Officer: Andrew Poole

Planning permissions 21/00135/OUT and 24/00496/REM necessitate diverting public right of way Footpath T93. In such cases there is no Decision Notice, but the diversion is done by a legal 'Public Path Order' made by the local planning authority (LPA) which granted the permission. The procedures are in The Town and Country Planning Act 1990 (TCPA90) section 257 and regulations (see www.legislation.gov.uk/ukxi/1993/10/made). Any legal diversion must be acceptable to the local highway authority (LHA), as the LHA then takes on oversight of the route. Reflecting the Public Path Order the LHA will also modify the Definitive Map of public rights of way (the official record) so the changes appear on Ordnance Survey maps and on the LHA's public mapping portal at: www.leicestershire.gov.uk/roads-and-travel/cycling-and-walking/where-to-walk-and-ride-in-leicestershire.

The 21/00135/OUT Decision Notice includes the Condition 24 that requires: *"No development shall take place until a scheme for the treatment of the Public Rights of Way (T93, T94 and U28) has been submitted to and approved in writing by the Local Planning Authority. Such a scheme shall include provision for their management during construction, surfacing, width, structures, signing and landscaping in accordance with the principles set out in the Leicestershire County Council's Guidance Notes for Developers."*

This condition was discharged on 23/04/2026 by permission 25/00157/DISCON which requires the works on public rights of way, including the diversion of Footpath T93 are in accordance with the following documents:

C24 MZ560-BRP-00-DR-A-SIT-8003-P04 Proposed Site – PROW

C24 24000-123C S38 Kerbing Plan-2 of 2

C24 24000-105D Private External Works Construction Details

C24 sd-fp-6-waymark-post

C24 MZ560-BRP-ZZ-DR-A-SIT- 0075-C13 Site Boundaries and Surfaces Plan Master

To reflect these decisions and the requirements of the TCPA90 section 257 and the LHA's Leicestershire Highways Design Guide (LHDG), the LHA advises that the LPA's legal Public Path Order for this diversion should contain the following sections:

3. The diversion of the footpath shall have effect on the date on which, on behalf of Hinckley & Bosworth Borough Council, the Leicestershire County Council certifies that the terms of Article 2 above have been complied with.

4. The following works shall be carried out in relation to the highway described in Part 2 of the Schedule namely:

(a) The alternative Footpath T93 shall have a 2.0 metres wide asphalt surface (reflecting the LHA standard specification for footways on drwg. SD/1100/05) with a minimum of 1.0 metre clear grass verge on either side unimpeded by any tree or shrub planting.

(b) There shall be fingerpost signs (conforming to LHA standard design SD/FP/7) where the alternative Footpath T93 commences from Footpaths T94 and U28, and where Footpath T93 diverges from or crosses over estate roads whether public or private. There shall be a yellow-topped marker post (conforming to LHA standard design SD/FP/6) at the point where Footpath T93 exits the eastern site boundary.

(c) Any stiles remaining in the site boundaries should either be replaced with a minimum 1.0 metre gap in the boundary, or if a barrier remains necessary, with a low maintenance metal kissing gate (reflecting LHA standard specification SD/FP/12) to comply with the government's 'least restrictive' option policy under the Equality Act 2010.

5. Vistry South East Midlands of Penman House, 1 Penman Way, Enderby, Leicester, LE19 1SY are hereby required to pay the costs of carrying out the said works.

Planning case law requires that a TCPA90 section 257 Public Path Order must be made and legally 'confirmed' before the development is substantially complete, otherwise the LPA's legal powers to make the order will lapse. The LHA supports any Public Path Order that conforms with permission 25/00157/DISCON and with the recommended order sections outlined above. If the LPA cannot ensure that a legal order is made and legally confirmed within the timescale set by planning law, then the LHA objects to the current application.

The LHDG includes the LHA's standard specifications for Footways, Cycleways etc. at: www.leicestershirehighwaydesignguide.uk/materials-and-construction/standard-drawings-and-specification/series-1100-kerbs-footways-cycleways, and the LHA's standard specifications for other aspects of Public Rights of Way at: www.leicestershirehighwaydesignguide.uk/materials-and-construction/standard-drawings-and-specification/rights-way-standard-drawings.

To satisfy section 4.(b) the applicant may install the fingerpost signs themselves or, by prior agreement, the LHA can source and install suitable fingerpost signs the costs being recharged to the applicant.

Notes to Applicant

The following notes should be drawn to the applicant's attention:

- a) Prior to construction, measures should be taken to ensure that users of the Public Right of Way are not exposed to any elements of danger associated with construction works.
- b) Public Rights of Way must not be re-routed, encroached upon, or obstructed in any way without authorisation. To do so may constitute an offence under the Highways Act 1980.
- c) If there are any Public Rights of Way which the applicant considers impracticable to retain on their existing lines, a separate application for diversion is required. It should be submitted under the Town and Country Planning Act 1990 to the Local Planning Authority. The applicant is not entitled to carry out any works directly affecting the legal line of a Public Right of Way until a Diversion Order has been confirmed and become operative.
- d) If the developer requires a Right of Way to be temporarily diverted, for a period of up to six months, to enable construction works to take place, an application should be made to networkmanagement@leics.gov.uk at least 12 weeks before the temporary diversion is required.
- e) Public Rights of Way must not be further enclosed in any way without undertaking discussions with the Highway Authority (0116) 305 0001.
- f) Any damage caused to the surface of a Public Right of Way, which is directly attributable to the works associated with the development, will be the responsibility of the applicant to repair at their own expense to the satisfaction of the Highway Authority.
- g) No new gates, stiles, fences, or other structures affecting a Public Right of Way, of either a temporary or permanent nature, should be installed without the written consent of the Highway Authority. Unless a structure is authorised, it constitutes an unlawful obstruction of a Public Right of Way, and the County Council may be obliged to require its immediate removal.
