Notes to applicant

- a) The approved development may require Building Regulations Approval, for further information please contact the Building Control team via e-mail at building.control@blaby.gov.uk or call 0116 272 7533.
- b) Refer to NJUG Guidelines for the Planning, Installation and Maintenance of Utility Apparatus in Proximity to Trees.
- c) Before starting the work identify the protection zone with marker paint or pegs. This will ensure that the installation team know the precise area where special precautions are required to avoid or minimise damage.
- d) All excavations using hand tools need to be carried out with great care to avoid damage to as many roots as possible. There must be close supervision during hand-digging operations and the installation team should understand what is required. All tree roots over 25mm in diameter should ideally be worked round and retained. If, however, it is necessary to remove these roots, a request for advice should be sought via forestry@leics.gov.uk.
