ECOLOGY REPORT

BIODIVERSITY SURVEY

FOR

PROPOSED DEVELOPMENT AT

11 RINGWOOD CLOSE DESFORD

DEVELOPMENT SERVICES
12 JUN 2008
RECEIVED

A thorough survey of the site including the existing dwelling loft space has been undertaken and there are no visible signs of bats.

The garden areas were looked at and there is no evidence of great crested newts, door mice or badgers.

Information obtained from the following organizations has assisted in the above:
