Parking Provision

The existing property is a four-bedroom dwelling and currently benefits from a double garage, providing two off-street parking spaces, in addition to driveway parking.

The proposal involves the partial conversion of the garage into habitable accommodation, resulting in the retention of a single garage space. This represents a net reduction of one off-street parking space.

Notwithstanding this, the property will continue to provide a total of three off-street parking spaces in accordance with Leicestershire County Council parking standards for a four-bedroom dwelling. This comprises one space within the retained garage and space for two vehicles on the existing driveway, which is of sufficient size to accommodate two cars.

The proposal does not increase the number of bedrooms or create an additional dwelling and therefore will not give rise to any increase in parking demand.

It is also noted that similar garage conversions within the locality have been approved, where adequate off-street parking has been retained. The proposal is therefore consistent with established local precedent.

Accordingly, the development will not result in overspill parking or any adverse impact on highway safety and is considered acceptable in parking and highways terms.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.
