

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

1. Submission details

1.1 Date

For example, 3/11/2023

29/04/2026

1.2 Planning application reference number

25/000439/FUL

1.3 Local planning authority (LPA)

Hinkley and Bosworth Borough Council

1.4 Development site address

If the site does not have an address, enter the OS grid reference.

Cold Comfort Farm, Rogues Lane, Hinckley LE10 3DX

1.5 Describe the development

Tell us about the proposed development and any changes of use (250 words).

Construction of Glamping pods

2. Developer details

2.1 Applicant name

Chris McManus

2.2 Company name

ADI Midlands Ltd

2.3 Address

Cold Comfort Farm, Hinkley, Leicestershire, LE10 3DX

2.4 Email address

chris@a-d-i.co.uk

2.5 Telephone number

07717595617

2.6 Declaration

By signing this declaration, you confirm that the information you give is complete and correct. Any opinions are your genuine opinions.

2.7 Signature

2.8 Date

7/5/2026

3. Responsible person details

Tell us about who is responsible for completing the biodiversity gain plan. For example, a consultancy ecologist or planning agent.

3.1 Name

Anna Scott-Swift

3.2 Company name

Croft Ecology

3.3 Address

43 Sparkenhoe, Croft, Leicestershire, United Kingdom,
LE9 3EP

3.4 Email address

Anna@croftecology.co.uk

3.5 Telephone number

3.6 Declaration

By signing this declaration, you confirm that the information you give is complete and

correct. Any opinions are your genuine opinions.

3.7 Signature

A Scott-Swift

3.8 Date

29.04.26

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes

☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

The biodiversity net gain assessment has been undertaken in accordance with the statutory Biodiversity Metric and associated guidance on what counts towards biodiversity net gain. The baseline habitats reflect those present on the Site at the time of the planning application. The post-development habitats represent genuine habitat retention, enhancement and creation measures within the Site boundary.

No habitats excluded under the guidance (such as temporary habitats or standard built development landscaping with negligible biodiversity value) have been counted toward the biodiversity gain. Proposed habitats contributing to biodiversity net gain will be secured on Site, primarily through enhancement of retained grassland.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

There are no irreplaceable habitats within the site.

Development is focused on areas of low distinctiveness habitat (modified grassland) and areas scoring zero on the BNG metric (artificial unvegetated, unsealed surface and developed land; sealed surface) whilst the medium distinctiveness habitats – mixed scrub and hedgerows, have been retained within the proposals.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes

☐ No

4.6 How will you achieve the target net gain percentage?

- ☒ On-site
- ☐ Off-site
- ☐ Both

4.7 Are any of your on-site enhancements considered ‘significant’?

[Find out what counts as a significant on-site enhancement.](#)

- ☒ Yes
- ☐ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you’ve secured the habitat.

The proposals result in a significant uplift in the biodiversity value of the Site and includes the planting of 18 native trees and enhancing modified grassland to other neutral grassland in moderate condition by scarifying the ground and sowing Emorsgate Standard General Purpose Wildlife Mixture (or similar) and managing as a meadow with a late hay cut and arisings removed.

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

0

4.10 Explain why you’re using off-site biodiversity units

Only answer this question if you’re planning to use off-site biodiversity units (250 words).

4.11 Explain why you’re planning to use statutory biodiversity credits

Only answer this question if you’re planning to use statutory biodiversity credits (250 words).

4.12 Do you have a habitat management and monitoring plan?

- ☒ Yes
- ☐ No

4.13 Have you used the statutory biodiversity metric tool?

☒ Yes

☐ No

4.14 Biodiversity metric calculation

Send your biodiversity metric calculation to the LPA and enter the file name.

ColdComfortFarmGlamping BNG Metric v1.1.xlsm

4.15 Condition assessments

Send your condition assessments to the LPA and enter the file name.

ColdComfortFarm.GrasslandCondAssess.pdf
ColdComfortFarm.UrbanCondAssess.pdf
ColdComfortFarm.ScrubCondAssess.pdf

4.16 Pre-development habitat survey report and map

Send your baseline habitat survey report and map to the LPA. Enter the file name.

Cold Comfort PEA v1.pdf

4.17 Post-development habitat map or landscape plan

Send your post-development habitat survey report and map to the LPA. Enter the file name.

231154-01-02 - Proposed layout plan_revised.pdf

4.18 Have you included an approved habitat degradation in the baseline?

If yes, include the relevant consenting body and reference number.

☐ Yes

☒ No

Consenting body

Reference number

5. Irreplaceable habitats

5.1 Does the development impact any irreplaceable habitats?

If yes, tell us if you've submitted an approved compensation plan.

☐ Yes

☒ No

5.2 Have you submitted an approved compensation plan?

☐ Yes

☒ No

6. On-site habitat enhancements

Answer this section if your development includes on-site habitat enhancements.

6.1 Survey date

For example, 3/11/2023

23/05/2025

6.2 Survey constraints

For example, access issues, weather, or seasonal constraints.

None

6.3 Total pre-development biodiversity value

Enter the number from the headline results in your statutory biodiversity metric calculation.

Number of area habitat biodiversity units

1.07

Number of hedgerow biodiversity units

0.14

Number of watercourse biodiversity units

0

6.4 Total post-development biodiversity value

Enter the number from the headline results in your statutory biodiversity metric calculation.

Number of area habitat biodiversity units

2.32

Number of hedgerow biodiversity units

0.38

Number of watercourse biodiversity units

0

6.5 Total net change in biodiversity units

Enter the number from the headline results in your statutory biodiversity metric calculation.

Area habitat biodiversity units

1.28

Area habitat biodiversity units % change

117.07

Hedgerow biodiversity units

0.25

Hedgerow biodiversity units % change

178.52

Watercourse biodiversity units

N/A

Watercourse biodiversity units % change

N/A

6.6 Will you register and allocate any biodiversity units from your site to other developments?

If yes or provisionally, give details.

☐ Yes

☒ No

6.7 Give details

Tell us about the amount of biodiversity units and the development location (250 words).

7. Off-site habitat enhancements

Answer this section if your development includes off-site habitat enhancements.

7.1 Tell us about the off-site habitat enhancements

Include whether you're delivering the off-site enhancements or buying biodiversity units.

N/A

7.2 Biodiversity gain site register reference number

7.3 How have you secured the off-site habitat enhancements?

Tell us about any responsible bodies and whether you've used an S106 or conservation covenant.

7.4 Total baseline biodiversity value

Enter the number from the headline results in your statutory biodiversity metric calculation.

Number of area habitat biodiversity units

Number of hedgerow biodiversity units

Number of watercourse biodiversity units

7.5 Total biodiversity value post-intervention

Enter the number from the headline results in your statutory biodiversity metric calculation.

Number of area habitat biodiversity units

Number of hedgerow biodiversity units

Number of watercourse biodiversity units

7.6 Total net change in biodiversity units

Enter the number from the headline results in your statutory biodiversity metric calculation.

Area habitat biodiversity units % change

Hedgerow biodiversity units

Hedgerow biodiversity units % change

Watercourse biodiversity units

Watercourse biodiversity units % change

8. Statutory biodiversity credits

Answer this section if you need to use statutory biodiversity credits.

8.1 Do you need to use statutory biodiversity credits?

- ☐ Yes
☒ No

8.2 How many statutory biodiversity credits do you need?

Tell us the unit shortfall by tier, including the spatial risk multiplier. Enter the number from the headline results in your statutory biodiversity metric calculation.

A5

H

W

8.3 What evidence is there that no units are available through the market?

Send a message from at least 3 habitat providers, or a search result from online registers.

8.4 Proof of purchase

Send proof of purchase and enter the reference number.

9. Trading summary

9.1 Distinctiveness group

Tell us if you met the BNG trading rules on habitat compensation for each distinctiveness group. If you did not meet the trading rules, tell us if you agreed bespoke habitat compensation.

Check the rules on habitat compensation in the [statutory biodiversity metric user guide](#).
