

Croner House, Hinckley

Phase 1 Ground Floor – Additional Outdoor Air Conditioning Plant Location

The Site (from Google Earth):

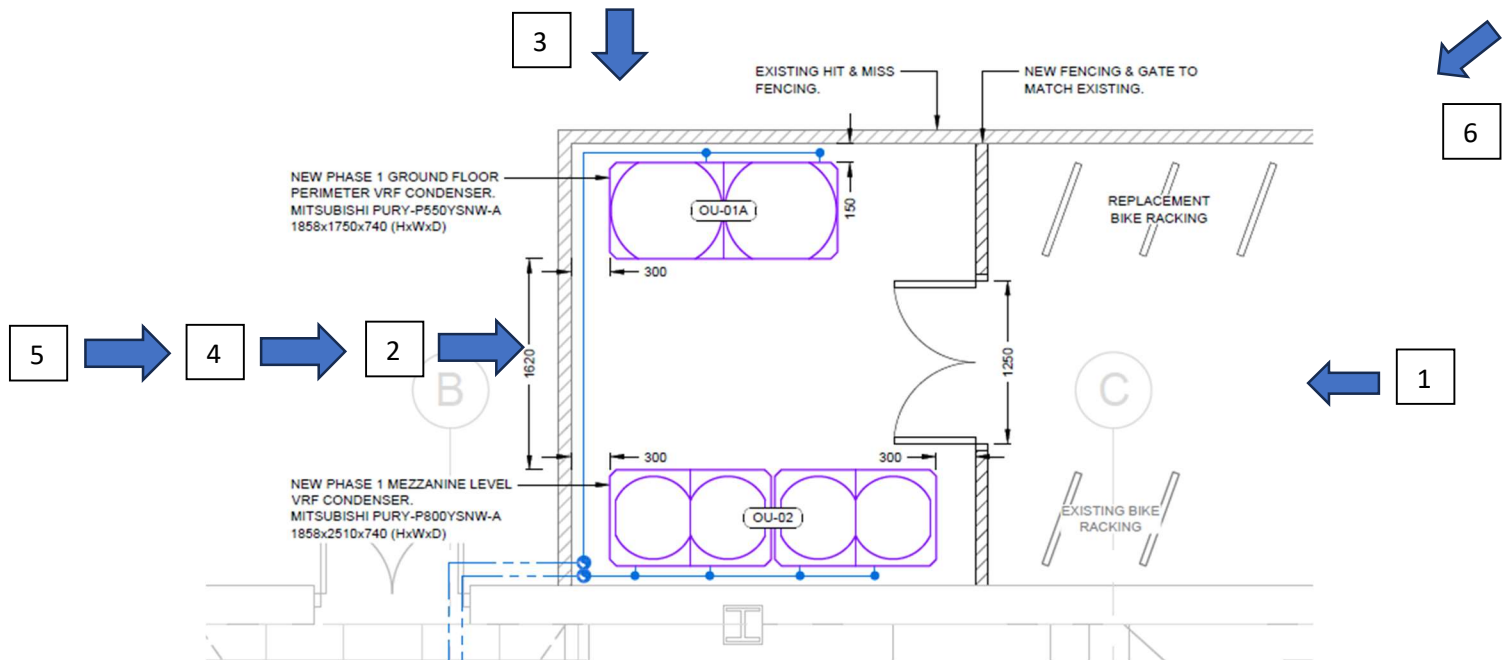

Existing plant compound

Proposed location for additional condensers

As part of the Phase 1 fit out works of Croner House, Hinckley, it is proposed that an additional outdoor condenser location is required to situate external air conditioning condensers for the ground floor system (1No.) and mezzanine (2No.). This will comprise of 3No. double Mitsubishi condensing units – 1No. 1858(H)x1750(W)x740(D) and 1No. 1858(H)x2510(W)x740(D) total.

Proposed Setting Out (From Pulse Project Solutions Drawing):
