Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The proposed scheme does not exceed the square metrage of the original dwelling by more than 25sqm

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

The following was sent to Edward Stacey on the above date:

"Hi Ed,

Hope you are well.

I wanted to have a quick chat with you about the above site but didn't want cold call you without some context and appreciate you are busy.

We gained "approval" for an extension to the property under the Larger Homes Extensions Prior Approval process. A contractor has commenced exploratory works on site and much more of the original bungalow structure is Asbestos than the initial demolition Asbestos report we had completed had indicated. The plan was to refurbish the original front part of the bungalow and then build the back part as per the HHGDO approval. The Asbestos report was done as a demo report as part of the previous scheme which was for a total demolition and replacement with a 2 storey dwelling.

Given the discovery that every external wall behind the facing stone is double layers of Asbestos and every internal wall is also Asbestos would the council be open to an application for this to be a new build dwelling? There would be no other changes to the scheme from that approved under the HHGDO. The area of habitat affected would also be less than 25m² so no BNG requirement.

Happy to discuss over the phone if that is easier?

Regards"

This was agreed by Edward and was happy for us to submit this as a full planning application and that he has no objections to it given the situation.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
